

Translate messages

To enable translations, follow these steps:

1. Open the (web)app
2. Click on your profile image in the topbar of the homepage.
3. Choose "Account & Profile"
4. Click the "Account" tab
5. Click the option "Translate messages > do not translate":

6. Choose your preferred language and press save.
7. Once you open the app, group posts are translated into the language you selected. For the conversations, you can click on the translate button in a text bubble.

Available languages and translated content

At this point in time, the conversations and group messages are translated. Available languages are:

- Arabic
- English
- French
- German
- Polish
- Spanish
- Turkish
